

AETE

Association Européenne des Technologies de l' Embryon
Association of Embryo Technology in Europe

Invitation to the 40th Annual Meeting of the AETE, Brescia, Italy, 5 and 6th of September 2024

Dear Colleagues,

You are cordially invited to attend the 40th Annual Meeting of the Association of Embryo Technology in Europe (AETE) which will be held in Brescia, Italy, on September Thursday 5th and Friday 6th 2024.

The AETE is the only Europe-wide association dealing exclusively with the field of embryo transfer and associated assisted reproductive techniques in domestic animals. The main objectives of the association are to facilitate the diffusion of knowledge and the implementation of new techniques in the field. The AETE gathers the best European experts in the fields of animal reproduction and embryo biotechnologies. Approximately 180 – 200 delegates regularly attend the annual meeting. While most participants are from Europe, there is growing interest towards our meeting also outside Europe.

The Board has put together an exciting program and all invited speakers have accepted the invitation for the 2024 meeting, which has exciting new information for both scientists and practitioners. The central theme of our 2024 meeting will address the past 40 years and the future of reproductive biotechnologies. The meeting not only focuses on science and embryo technology applications but puts a large emphasis on interaction and networking at our practitioner and sponsor forum. This is further stimulated with an attractive social program. For more information about the association and to view proceedings from previous annual conferences please visit www.aete.eu.

The location of the AETE 2024 is the City Center of Brescia, a dynamic city from Lombardy nominated Italian capital of the culture 2023, not far from the very touristic place of the Garda Lake. The meeting will be held in the beautiful Paolo VI hotel (<https://paolovi.it/en/>) which creates a unique atmosphere for the conference setting. We foresee a large booth area, in the hall of the main building, where sponsors and private partners can present the products depicted in their portfolio and where interaction with delegates is optimally stimulated. Long coffee breaks and sponsor presentation opportunities are foreseen in the program.

Financial support, through delegate registrations as well as sponsorship is crucial to the running of the annual conference. We, from our side, will do our utmost best to maximize the exposure of your company and products before, during and after the conference. The various sponsoring options and an application form are attached for your information. To be consistent with offers from other scientific societies and considering the inflation rate in Europe during last years, the categories of sponsorship have been updated. Please contact us for any further inquiry.

We look forward to seeing you in Brescia next September for our 40th Annual AETE meeting.

SPONSOR OPTIONS

Sponsors are invited and stimulated to contact the board of the AETE if they want to support (price upon request):

- the **travel expenses of one of the keynote speakers** (registration, accommodation, travel). The company name will be mentioned in the scientific program and specific acknowledgements will be made during the conference seminars.
- a **workshop or organize a hands-on demonstration or training** to attract practitioners.
- the social part of the program:
 - **welcome reception,**
 - **gala dinner,**
 - **farewell party.**
- a specific **training course or lunch for the students.**
- The **poster session** (electronic of traditional boards).
- Or any additional good ideas !

Please let us know if you are interested in supporting one of the above session formats. We will gladly inform you about the details (definition, time, etc.) of this sponsoring opportunity! We use a first come first serve principle. Contact us as soon as possible so we can finalize the program of the AETE conference.

For further information and questions, do not hesitate to contact the AETE treasurer:
