

AETE

Association Européenne des Technologies de l' Embryon

Association of Embryo Technology in Europe

Joint publication of abstracts and manuscripts in the ANIMAL REPRODUCTION journal:

AETE and SBTE 2018

Guidelines for submitting abstracts

All abstracts will be submitted for consideration as poster presentations. An invitation for a short oral communication may be extended depending on the decision of the board members.

Only abstracts of unpublished and original studies submitted by May 15, 2018, will be accepted, according to the detailed instructions below. The submitted abstracts will be reviewed by the members of the AETE Board.

When submitting the abstract, the author must choose one of the following sub-areas under which the abstract will appear:

- (a) TAI/FTET/AI
- (b) OPU-IVF and ET
- (c) Folliculogenesis, oogenesis, and superovulation
- (d) Physiology of reproduction in male and semen technology
- (e) Embryology, developmental biology, and physiology of reproduction
- (f) Cloning, transgenesis, and stem cells
- (g) Support biotechnologies: Cryopreservation and cryobiology, diagnosis through imaging, molecular biology, and "omics"

Instructions for preparing abstracts

Word Limit: Abstracts are limited to 3250 characters, including spaces. The title, keywords, and acknowledgments are included in the 3250-character limit. However, the authors and affiliations are not included.

Title: Capitalize only the first word, leaving all others lowercase unless proper nouns. Do NOT bold or italicize the entire title. Do NOT include any author information in the title.

Author Names: Use initials for the first and middle names and provide the full last name of each author. The maximum number of authors is 15.

Affiliations: List affiliations in the following format: Department (optional), Company/Institute, City, State, and Country. No other detail is required.

Formatting: The content must include objectives, materials and methods, results, and conclusions. Do not use sub-headings (e.g., introduction, methods, conclusion) in your abstract. Tables and figures will not be accepted. With the exception of established abbreviations (e.g., FSH, LH, hCG, eCG, BSA, IVF, IVP), abbreviations must be defined in full the first time they appear in the text of the abstract. Commercial products and other materials should be identified in the text by manufacturer name, city, and country. Dosages and routes of administration should be specified. The statistical methods used in the analysis must be indicated. References should be summarized (consisting of first author, journal, volume, page, and year) and appear in the same sentence as the quoted text. Up to 3 keywords are allowed.
